Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I purchased a Tracfone so that I would have a way to contact friends and family in times of an emergency. I also have this phone because I do not need or can I afford a set monthly cell phone bill. If these rates are raised, it not only means that we are not the ones that control our cell phone bill, but that it is another charge to the already high payments that we pay. Please reconsider raising the rates.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
